- 03 The programme
- 04 Your daily journey
- 05 Meet your instructors
- 06 Week 1 class timetable
- 07 Week 2 class timetable
- 08 Week 3 class timetable

CALMER LIFE

WE ALL NEED THAT INNER PEACE

Life throws chaos at us on a regular basis. Whether it's our finances, our relationships, or our health, cultivating a more restful, relaxed state of mind doesn't mean we'll drown under all our responsibilities.

Factors such as work, home, personal and emotional problems can contribute to the challenges in which we feel under pressure.

ITS ABOUT FINDING THE CALM

When you're in a calmer and happier place, that's probably the day when you will have more satisfaction. When you're calm, you also manage your energy because you're not burning yourself up constantly, spending your days with your sympathetic nervous system in overdrive.

Being calm helps you focus on what you need to do and get it done much more quickly. If you want to get the most out of yourself in terms of your productivity, creativity, and lifestyle, a centred and relaxed way of life enables the mind and body to function on the highest levels.

"Smile, breathe and go slowly"

OUR METHOD

WHAT IS GOLDSTER?

Goldster is a digital platform that has pioneered the only systematic non-drug approach to health.

Built from all the available evidence and extensive data sets, it combines social interventions that are designed to target the physical, emotional and cognitive benefits people seek for their health.

A STRUCTURED WELLNESS INTERVENTION PATHWAY

The programme is driven by Goldster's own Structured Wellness Intervention Pathway (SWIP).

We identify the most appropriate non-drug approaches for healthy living and ageing to deliver benefits to people.

Our method links common problems faced with ageing, and connects them to the most effective approaches, enabling a simple and accessible way to improve the desired area of health.

"The path is made by walking on it"

THE PROGRAMME

The Goldster Calmer Life programme is aimed at finding and implementing ways to manage stress, develop resilience and bring a greater sense of calm to one's life. Together, we'll focus on improving your understanding of the triggers of stress, as well as habits and methods you can use in your day-to-day life. The 21-day programme will have you feeling calm, with reduced levels of stress and anxiety, with an improved focus and overall wellbeing.

A CONNECTED COMMUNITY

While we live in a digital world, keeping social and connected is one of the biggest aspects of a healthy life.

We want to give you as many options to communicate and be as social as possible through this journey.

- You will be greeted by the presenter in every class as a group. We want to celebrate your commitment and keep you motivated
- You will have your own dedicated Facebook group, where our team, other participants and previous programmes will celebrate every win and step forward
- You will meet your instructors and other members at the start, enabling you to build rapport and friendships.

EVIDENCE-BASED, LIVE INTERACTIVE CLASSES

- 2 daily live & interactive classes to choose from on Zoom direct to your email inbox
- These classes are aimed to benefit improvement in your daily stress and sense of calm
- Classes are based on the areas of meditation, mindfulness, positive psychology and movements of relaxation
- Weekly coaching to support your journey and enable your advancement linked to the evidence-based classes. Don't worry if you miss the coaching, you can catch up on the recording.

"When we do it together, we feel better together"

THE PROGRAMME

TRACK YOUR PROGRESS

The key to any improvement in health is understanding how your progress is made. This programme has a range of questionnaires and surveys to help to track your improvements.

During the programme we will monitor:

- Your perceived physical, emotional and cognitive health with an assessment at the start and at the end
- Your daily levels of perceived stress and where you see the greatest areas of difficulty so your instructors can target them
- Your feedback with a daily post-class stress and calm survey to understand how you're feeling

LEARNING IS PART OF THE JOURNEY

Understanding our health can help us prevent health problems, protect our health, and manage health problems better when they arise.

Not all of us are familiar with medical terms or how our bodies work. We have to interpret statistics and evaluate risks and benefits that affect our health and safety. Let our research team help you understand the impact of stress on the body and share the latest research on the number of ways to manage stress effectively.

Dr Zara Quail's "Science of Stress" Masterclass will be on Wednesday 28th of September at 4:00pm

"Learning is a journey of self discovery"

YOUR DAILY JOURNEY

1

THE NIGHT BEFORE

CHECK YOUR INBOX FOR THE CLASSES

Every evening, we will email you the classes for the next day, with the links to join. Don't forget to check your spam and your junk folder.

2

DAY OF EACH CLASS

CHECK IN WITH YOUR COMMUNITY

Your team are always looking to keep you motivated and hitting your goals. Don't forget to look for messages and talk to the rest of the community. You're all on this journey together!

3

THE CLASS IS ABOUT TO START

WAITING ROOM OPENS 15 MINS BEFORE

Our class waiting rooms open 15 mins prior to the start time, just to give you enough time to get prepared and settled

4

WELCOME TO THE CLASS

GET A LOVELY GREETING

Welcome to the class, you will be greeted by our digital concierges. Listen for a shout-out from the instructors as you are part of a valued community

5

AFTER THE CLASS

SHARE YOUR EXPERIENCE

In your Facebook group, share how much you enjoyed it, inspire others to share and build up a community spirit. Our team will cheer you on everyday, with regular Facebook lives and daily posts to keep you motivated

6

LOOK FORWARD TO YOUR NEXT CLASSES

GIVE US YOUR FEEDBACK

Every afternoon, tell us how you found your class so we can make sure you are getting the most out of it

YOUR TEAM
